 EACH BLOCK REPRESENTS 1 SQFT

LIGHTING - TRACKS - WALLS

- | | |
|--|---------------------------------------|
| NF - 50W PAR20 Narrow Flood (30° beam) | MS - 50W MR16 Spot (10° beam) |
| S - 50W PAR20 Spot (10° beam) | W - 120W Rectangular Wall Wash |
| F - 100W R40 Flood Lights | SW - Standard Wall |
| MF - 50W MR16 Narrow Flood (30° beam) | EW - Extra Wall |
| P - Mark with a P for power outlet placement. Must be along one of the side walls (not along the back wall). | |

EXAMPLE: 10X20 BOOTH

Lighting will be ordered through M2 Productions. Each booth receives 3 lights per 10 feet of booth width. Truss included in booth rent will be inset 2 feet from the booth's front edge. **All lights are 100W R40 flood fixtures.** These floods will provide a general wash coverage of the wall space in the booth, but we strongly recommend you order additional lighting. If you want spot lighting, more wash lighting, or additional lighting for things not on the walls, you will need to order the additional fixtures as detailed below. **If you do not want extra lights, please let us know.**

A 10' booth gets three lights, 15' gets four lights, 20' gets six lights, 24' gets seven lights, and 30' gets nine lights. Each booth comes with a power outlet at the bottom of one of the booth side walls (not along the back wall). Please mark on the diagram where you would like your power outlet.

You may order extra 100W R40 floods, 50W PAR20 lights, 50W MR16 lights, and/or 120W rectangular wall washes. Prices will increase if ordered after January 15. Extra truss and extra power is available only if ordered before January 15 - they will not be available after this date, nor on-site. Please be aware that the truss comes in 10' sections only.

50W PAR20 Narrow Flood (30° beam) Fixtures \$25 per light / \$40 after Jan. 15 & on-site	QTY _____	\$ _____
